PROFESSIONAL SUMMARY

Full-Stack Developer with 2+ years of experience designing and building web applications, SaaS platforms, and custom software solutions. Proficient in React, Next.js, TypeScript, Node.js, PostgreSQL, and modern development workflows. Experienced in frontend development, backend API design, database architecture, authentication systems, and application deployment using Docker and Linux-based environments. Strong track record of taking products from idea to production while focusing on performance, usability, and maintainable code.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, SQL, HTML, CSS

Frontend: React, Next.js, Tailwind CSS, Zustand, React Hook Form, Zod, Framer Motion

Backend: Node.js, NestJS, REST APIs, JWT Authentication, Role-Based Access Control, Spring Boot

Databases: PostgreSQL, Prisma ORM, NeonDB, Redis

DevOps & Tools: Docker, Linux, Nginx, Git, GitHub, Cloudinary, BullMQ

Project Management: Mentorship, Team Collaboration, Product Management

Soft Skills: Presentation, Planning, Organized, Creative Problem-Solving, Teamwork, Active Listening, Adaptability, Analytical Thinking

EXPERIENCE

Freelance Full-Stack Developer | Remote | 2024 – Present

- Build and deploy custom web applications using React, Next.js, TypeScript, Node.js, and PostgreSQL.
- Develop frontend interfaces, backend APIs, authentication systems, and database architectures for client projects.
- Deploy applications using Docker, Linux servers, and Nginx.
- Work independently across the complete development lifecycle from planning to deployment.

PROJECTS

SimplyConverty | Full-Stack SaaS Platform | simplyconverty.com

- Built a full-stack file conversion and productivity platform using Next.js, NestJS, PostgreSQL, Redis, BullMQ, Docker, and Nginx.
- Developed asynchronous conversion workflows with background job processing and progress tracking for video, image, document, and audio files.
- Integrated conversion engines including FFmpeg, LibreOffice, ImageMagick, and qpdf into Dockerized processing pipelines.
- Built browser-based PDF and image utilities including merge, split, crop, rotate, resize, and extract tools.
- Designed SEO-friendly dynamic routing and conversion pages using the Next.js App Router.
- Implemented a reusable queue-based architecture for handling file uploads, conversion jobs, download management, and job status monitoring.

FreeConvert Clone | Frontend SaaS Application | cs-converter-website.vercel.app

- Developed a modern file conversion and utility platform with a comprehensive collection of PDF, image, and document tools.
- Built reusable conversion interfaces, drag-and-drop uploads, file management flows, and responsive layouts using React, Next.js, TypeScript, and Tailwind CSS.
- Focused on polished user experience with consistent design systems and maintainable frontend architecture.

SwiftConvert | Browser-Based Conversion Platform | swiftconvert-2025.vercel.app

- Built a client-side file conversion platform that performs supported conversions directly in the browser without backend dependency.
- Implemented WebAssembly-powered processing workflows for handling media and document conversion on the user's device.
- Developed a responsive interface focused on performance, usability, and privacy for local file processing.

University Portal | *Learning Management System* | cui-uni-portal.vercel.app

- Developed a multi-role Learning Management System using Spring Boot, Next.js, and PostgreSQL with separate dashboards for students, teachers, and administrators.
- Built authentication and authorization using JWT tokens and role-based access control.
- Designed relational database structures for academic records, enrollments, courses, and grading workflows.

Vivigro | *Agricultural E-Commerce Platform* | vivigro.vercel.app

- Developed a responsive e-commerce platform for organic fertilizer products using Next.js, TypeScript, and Tailwind CSS.
- Built an admin dashboard with product management, order tracking, and inventory controls using Prisma ORM and PostgreSQL.

EDUCATION

COMSATS University Sahiwal— Bachelor of Science in Computer Science

Expected Graduation: May 2029 • GPA: 3.52 / 4.00

Relevant Coursework: Programming Fundamentals, Object-Oriented Programming, Database Systems, Web Development, Data Structures

ADDITIONAL

- Peer Programming Mentor at COMSATS University Sahiwal: Assist fellow students with Programming Fundamentals, Java, debugging techniques, and coding best practices.
- Active on GitHub: Maintain personal development projects focused on SaaS platforms, web development, and full-stack engineering.

LANGUAGES

- English [Fluent]
- Urdu [Native]
